

## Elkhart Coach ECII

The Elkhart Coach model ECII is the newest addition to the Forest River bus family. The ECII offers clean styling, great value and outstanding fit and finish.

Built to please, engineered to last, the Elkhart Coach ECII is manufactured for years of care-free driving and performance. Our team of experienced, quality oriented production and manufacturing experts have engineered the "best value for your money" vehicle coupled with the best warranty in the market.

Built on the Ford E-Series chassis and 7-year, 200,000-mile Altoona tested, the ECII is a safe, rugged and reliable coach that goes beyond where many others leave off. Passengers are surrounded by an all steel cage with laminated steel and aluminum walls, providing a quiet, solid ride. With optional paratransit equipment, operators and passengers will enjoy all of the flexibility and features the ECII has to offer.

Elkhart Coach stands by its policy of:  
"We Will Sell No Bus Before It's Time"
